KUALA LUMPUR, MALAYSIA -- Media OutReach -- 3 July 2014 -- F resenius Medical Care the world's leading provider of dialysis products has set new clinical standards in Malaysia. Its clinic, The
Kidney Dialysis Centre (TKDC)
Taman Desa
became the first private dialysis clinic in the country to achieve international accreditation since September 2013 through ACHSi
.

The TKDC clinic recently celebrated itsachievement of becoming the first internationally accredited private dialysis clinic in Malaysia at a ceremony
w
hen the accreditation plaque was unveiled by Dr Desmond Yen, Executive Director, ACHS
i
. Guests included Ministry of Health and other government officials.

Excellent renal care is of critical importance, since 60 percent of the Malaysian CKD is caused by diabe
tes and hypertension

.

Thanks to the constant commitment of TKDC's staff, the clinic guarantees high quality operations and patient safety. With its accreditation status, TKDC will serve as a model to

enhance the country's development in fulfilling safety standards and ultimately maximising patient outcomes.

Fresenius Medical Care Malaysia's Managing Director, Chee Hui Cheng stated:*"It is our commitment to deliver high quality care for our patients. We have marked the first milestone in transforming the local renal landscape by attaining international accreditation. Our vision as THE RENAL COMPANY is to accredit our other Fresenius Medical Care clinics so that we take renal care in Malaysia to the next level."*

ACHSi (Australian Council on Healthcare Standards International) is the leading healthcare accreditation body in Australia and has developed an international reputation providing accreditation in many countries. The principles upon which the ACHSi's programs are developed reflect the characteristics displayed by an organisation on consumer focus in care and service provision, effective leadership, continuous improvement, evidence of outcomes, and striving for best practice.
