collection. This surprisingly versatile garment can easily be vamped up with thigh high stockings and jewelry, which are also available at Prestige Biatta, for the woman who really wants to turn on the style after hours.

For the vixen in every woman, there are many lingerie choices to spice up her lingerie drawer. Baby doll nighties are particularly popular at Prestige Biatta, and it's easy to see why. These barely-there garments are meant for the woman who wants to show off her sassy style in a contemporary way. Luxurious fabrics such as translucent organza, lightweight lace and stretch satin make for some of the best babydoll nighties customers can find online, all which come with matching t-back thongs or cheeky hipsters. The babydoll style has changed considerably since it was first introduced almost 60 years ago, back when it was rather shapeless and looked best on slimmer women because of the volume it added to the figure. Today, the babydoll lingerie at Prestige Biatta is right on trend, and available in a variety of body conscious styles, colors and sizes that show off a woman's best physical features.

No matter her taste or style, Prestige Biatta has something for any woman, including bras for juniors and bras, panties and lingerie for plus-sized ladies. In fact, the brand carries sizes from a 32A bra size all the way up to a 42DD and a size 5XL panty. Few other lingerie purveyors cater to the plus size population and provide sexy designs specifically crafted for the fuller-figured lady. Prestige Biatta believes that women with curves are often left out of the fun of lingerie from many other brands who design bland, neutral-colored bras and panties for women over a certain size. Fabulous colors and exciting prints are available in all of the plus-sized options at Prestige Biatta, and ladies have many choices when it comes to styles, in addition to everyday bras and panties.
