

NEW YORK, January 13, 2014 /PRNewswire/ --

Wall-Smart is pleased to announce that **Wall-Smart** for Touch Panels has been recognized by the Consumer Electronics Association's TechHome Division with the 2014 Mark of Excellence Award of Rack or Mount Product of the Year, at the International Consumer Electronics Show (CES).

CEA's Mark of Excellence Awards recognizes the most innovative home technology custom installation projects and designs.

"We're delighted to receive this award and to be recognized for our innovative products," said Galia Ben-Dor, Co-CEO and Founder of Wall-Smart.

The **Wall-Smart** for touch panels mesh into any wall for unobtrusive

installations that preserve the room décor. These flush-mount adapters can simply be painted to truly appear to be part of the wall and create an integrated look of any wall.

Wall-Smart offers cutting edge customized flush-mount solutions for 5", 7", 10" touch panels of Crestron, Control4, RTI and more. Each wall mount is customized to the specific touch panel and takes into consideration audio requirements (speakers and microphone) and thermal requirements.

All mounts are accessible for repair. After installation the touch panel appears to be a part of the

wall as an integrated unit.

About *Wall-Smart* Ltd.

Wall-Smart presents a new practical design that combines functional control & aesthetics to seamlessly integrate into any wall by providing innovative, creative yet cost-effective solutions for all in-wall challenges.

Our unique combination of Engineering, Interior Design & Production capabilities enable you to meet the demanding, constantly transforming functional design needs of the modern-day integrated smart home.
