

BURLINGTON, Massachusetts, September 11, 2013 /PRNewswire/ --

Attunity Ltd. (NASDAQ CM: ATTU), a leading provider of information availability software solutions, announced today that Info-Tech Research Group has named Attunity as top MFT innovator and awarded it the 'Trend Setter Award' in recognition of its Managed File Transfer (MFT) solution. Info-Tech Research Group's Trend Setter Award is presented to the most original and inventive solution evaluated by Info-Tech in the MFT product category, which is part of its recently published report, "*Vendor Landscape: Managed File Transfer*," now accessible [here](#) via Attunity's website.

"Unmatched in ease of use, Attunity keeps user experience at front-of-mind, and its full-featured MFT solution doesn't break the bank," explained **Stewart Bond, Senior Consulting Analyst at Info-Tech Research Group**

"Attunity has continued to build on and extend the MFT capabilities acquired from RepliWeb, so we expect more innovation from this vendor as the MFT market continues to evolve. Even with its latest advancements, the Attunity MFT solution remains affordable for any size enterprise."

Attunity also received a top 'value' score among the eleven vendors evaluated for Info-Tech Research Group's report, which, according to the report, means it provides much more "bang for the buck" than comparable solutions.

Attunity MFT (formerly RepliWeb Managed File Transfer RMFT) is a comprehensive and security-centric file transfer management platform that allows organizations to govern, accelerate and automate all aspects of application-to-application, machine-to-machine, user and ad-hoc file transfer processes. Simple and scalable, Attunity MFT provides security policy enforcement and auditing across each stage of the file transfer process, and is available with two- or three-tiered perimeter network architectures for implementations in highly-regulated industries with stringent security mandates.

"Attunity's managed file transfer solution is valued and trusted by hundreds of companies around the world," said **Shimon Alon, Chairman and CEO at Attunity**. "Therefore, validation of this caliber by Info-Tech Research Group, a highly-respected industry resource, is both gratifying and appreciated. We are proud and honored to have been recognized for this award."

Safe Harbor Statement This press release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and other Federal Securities laws. Statements preceded by, followed by, or that otherwise include the words "believes", "expects", "anticipates", "intends", "estimates", "plans", and similar expressions or future or conditional verbs such as "will", "should", "would", "may" and "could" are generally forward-looking in nature and not historical facts. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results, expressed or implied by such forward-looking statements, could differ materially from Attunity's current expectations. Factors that could cause or contribute to such differences include, but are not limited to: our reliance on strategic relationships with our distributors, OEM and VAR partners, and on our other significant customers; risks and uncertainties relating to acquisitions, including costs and difficulties related to integration of acquired businesses; our liquidity challenges and the need to raise additional capital in the future; timely availability and customer acceptance of Attunity's new and existing products, including Attunity Replicate and Attunity CloudBeam; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Attunity's products; the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism; and other factors and risks on which Attunity may have little or no control. This list is intended to

identify only certain of the principal factors that could cause actual results to differ. For a more detailed description of the risks and uncertainties affecting Attunity, reference is made to Attunity's Annual Report on Form 20-F for the year ended December 31, 2012

, which is on file with the Securities and Exchange Commission (SEC) and the other risk factors discussed from time to time by Attunity in reports filed with, or furnished to, the SEC. Except as otherwise required by law, Attunity undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
