

WAYNE, Pa., Sept. 20, 2013 /PRNewswire/ -- [Evolve IP, The Cloud Services Company™](#), today announced that FirmTech has joined its CloudNOW partner program and is offering Evolve IP's award-winning [virtual data centers/ servers](#), [virtual desktops](#), and [disaster recovery](#) services to law offices in the Southern United States. Out of the gate, FirmTech was able to immediately identify business needs and implement solutions for several law firms.

CloudNow, is Evolve IP's cutting-edge program enabling VARs, Systems Integrators, Independent Software Vendors and other IT Service Providers to offer cloud computing services without the upfront investment, time and risk of building and operating their own platforms and data centers.

"We are very excited to have FirmTech join the CloudNow program and for their initial success," says Joe Corvaia, Vice President of Cloud Computing for Evolve IP. "The legal market requires a significant amount of trust and FirmTech is a proven IT partner that has serviced their clients exceptionally well."

"The Cloud is a natural fit for law firms that traditionally have high-octane computing needs but limited IT personnel and resources. Those needs have resulted in our customers asking us to provide cloud-based solutions," said David Boughter, CEO of FirmTech. "Evolve IP's CloudNOW program lets us deliver the benefits of the cloud to them immediately so they spend less capital while receiving better features and functionality. FirmTech also benefits from the higher availability and superior control available with Evolve IP's award-winning computing platform."

One of the nation's fastest growing cloud service companies, Evolve IP provides organizations with a unified option for cloud services. Today, tens of thousands of users primarily in the US and globally depend daily on Evolve IP for cloud services like [virtual servers](#) , [virtual desktops](#) ,

[disaster recovery](#)

, [unified communications](#)

, [contact centers](#)

, and more.
