

MANCHESTER, N.H., Sept. 24, 2013 /PRNewswire-iReach/ -- [nGage Events](#) , the leader in specialized hosted model events will host the [DataCenter Insights Summit](#) at the Hotel Del Coronado, November 3 – 5, San Diego . The main theme covered is "Transformation: Developing & Sustaining Change in the Data Center".

DCI is the premier enterprise focused hosted event for companies serious about transforming IT to meet today and tomorrow's data center challenges. DCI is an invitation-only, hosted summit designed for senior IT and business executives who want to understand how current and future technology trends will impact their data center vision and strategies and help grow their business.

"Escalating demands for more efficient and agile services have placed heightened pressures on the data center's infrastructure and operations organization," said Phil McKay, president nGage Events. "CIOs are concerned with the best practices that will enable business growth by leveraging mobility, cloud services, storage innovations, virtualization and more while reducing overall costs."

DCI is a world-class, three-day networking and business information exchange where a limited number of guests from leading enterprises and data center organizations are invited. DCI's unique format provides sponsors with boardroom meetings, case studies, and 1:1 meetings with executives intimately involved with data center strategy, purchasing authority, and purchasing intent across major industry verticals.

The agenda will be driven by industry expert Jerry Murphy, Worldwide Director, Enterprise Computing for Cognizant and a team of key advisory board members and speakers. They will provide the depth of knowledge, expertise, trends, technologies and solutions that meet the requirements of data center professionals across disciplines. Some topics that will be covered include:

- Transforming and Sustaining Change in the Data Center
- Technology Panel: Adapting to Next-Generation Data Centers
- Executive Panel: Funding Data Center Transformation
- Executive End-User Panel: Experiences in Cloud Computing
- CEO Panel: State of the Industry & Visionary Outlook
- Executive End-User Panel: The role of Service Providers in Evolving Data Center

Services

- Case Studies: Challenges, Strategy, Implementation, & Outcome
- Non-IT Infrastructure for 2020
- Software Defined Data Center/Software Defined Network - The Collision of Innovation and

Control

- The IT Industrial Revolution is Here. Are YOU Ready?
- Enterprise Mobility, Virtualization, and more...

DataCenter Insights is scheduled to take place November 3 - 5 at the Hotel Del Coronado in San Diego
