

NEW YORK, NY, September 12, 2013 **/24-7PressRelease/** -- Myriad Supply, a New York City-based supplier of computer and communications hardware solutions, has been included on the Inc. 5000 list of the fastest-growing private companies in America for the fifth consecutive year. The company earned elite status on the list as a Top 100 Computer Hardware Company, solidifying its position as a leader in the computer and networking hardware industry.

With over 10,000 global accounts and nationwide distribution facilities, Myriad Supply serves Fortune 500, Big Data, Healthcare, Government, and Financial Services outfits as a full-service, one-stop resource. The company offers a broad spectrum of solutions capabilities, with a large inventory of Cisco products and elite partnerships with manufacturers like Arista, Juniper, Brocade, Supermicro, HP and Extreme. Recently, partnerships have expanded to include solutions from Palo Alto, Ruckus, Riverbed, A10, and Aerohive.

Andrew Fisher, CEO of Myriad Supply, reflected on the company's growth by stating, "The past five years have been extremely productive and rewarding for the Myriad Supply team." On the company's recent distinctions he added, "Being recognized not only by Inc. for year-over-year growth but also by CRN as a top IT solution provider and Crain's New York Business as one of the best places to work has helped us constantly redefine our standards and build our business on a platform of customer and employee satisfaction."

Founded in 2003, Myriad Supply has become a widely recognized supplier of best-of-breed networking, data storage, cloud, wireless, VoIP and security hardware at highly competitive prices.
