

Elements Massage Location Opening in Chandler

Written by Australian Business

CHANDLER, AZ, September 20, 2013 **/24-7PressRelease/** -- Not all massage is created equal, and Elements Therapeutic Massage newest studio in Chandler is here to prove it. Opening on September 19th, Elements Therapeutic Massage Chandler will be there seven days a week to provide customers with relaxation, relief from chronic pain, and reduced stress. This new Elements location can be found in Chandler Village, just across the freeway from the Hilton and across the street from the Chandler Mall.

Once viewed as an expensive splurge, Elements is making therapeutic massage increasingly affordable and available to time-starved consumers who recognize the value of massage in maintaining their overall health and wellness. Those who receive regular massages benefit from lower levels of stress hormones, a heightened immune system, increase in circulation, etc. At Elements, the philosophy is to work with clients to exceed expectations by matching the right therapist to the desired outcome. This new location's massage therapists spend time with each client to understand problem areas and learn about any health conditions the client may have, therefore customizing the experience to meet specific needs.

Elements Therapeutic Massage has created a niche in an increasingly competitive industry by specializing solely in massage services, rather than offering aromatherapy and spa treatments as well, and providing a highly customized experience to each client. Whether it is to provide relief from pain, release of tension, reduction of stress or simply relaxation to help you feel your best, Elements Therapeutic Massage Chandler is committed to promoting your well-being.

Call to make an appointment, but walk-ins are welcome as well! Join the Opening email list and pre-book an appointment by visiting the new homepage at <http://elementsmassage.com/chandlervillage>.
