

LAWRENCE, KS, September 20, 2013 **/24-7PressRelease/** -- As a leading MedSpa in Lawrence, AesthetiCare strives to improve their patients' confidence in their facility and services offered. Through AesthetiCare's interactive website, patients are encouraged to leave testimonials to offer increased confidence for other patients. The testimonials allow patients to share their experience with receiving aesthetic treatments at AesthetiCare Medical Spa in Lawrence.

"Hearing about our patients' experiences while receiving aesthetic treatments at our Lawrence office allows us to shape the way our patients receive treatment. It is always a pleasure to know what we are doing right, or what we may need to change in the future. Testimonials also offer other patients a way to build their confidence in receiving treatment by viewing past experiences that were positive," said Matt Taranto, a member of AesthetiCare Medical Spa.

While visiting the website for AesthetiCare MedSpa in Lawrence, patients can access the testimonial page to view positive reviews from previous patients. Each patient has received various treatments from AesthetiCare, including Botox in Lawrence, and the testimonials show their satisfaction with the services that they received in addition to their continual commitment to AesthetiCare for all their aesthetic needs needs.

The entire staff at AesthetiCare, a Lawrence MedSpa, is dedicated not only to improving a patient's appearance and skin health, but also to focusing on preventive care and patient education. Their office maintains a comfortable, friendly atmosphere that puts patients at ease. Patients can improve their appearance at AesthetiCare far more comfortably than ever before.

One of the testimonials states, "Like anything in life, when you find something GREAT, you must share with all your friends! This is the way I feel about AesthetiCare! When it comes to your skin, you must be choosy and know you are dealing with professionals. This is why I have been a customer of AesthetiCare for over 10 years. They are simply the best when it comes to quality/friendly staff and cutting edge equipment!"

Another patient went to AesthetiCare MedSpa in Lawrence for Botox and shared her experience: "I have been going to AesthetiCare for 10 years now and only trust them for injectables. In the past, I saw two different plastic surgeons for Botox and decided that it was just too painful to ever do again. I would just live with these fine lines. Then I met Judy and thought I'd try one more time. It was almost painless so I figured it wouldn't be effective. The results could not have been better and I have been a client of hers and AesthetiCare ever since. I am an aesthetician and send my clients to Judy because I want them to be happy, too."

Aestheticare Medspa In Lawrence Shares Patient Testimonials Online

Written by Australian Business

Making a patient's skin look more youthful and healthy does not have to be "extreme" in any way. Further proof of AesthetiCare's continual dedication to providing exceptional aesthetic treatments can be seen through the numerous patient testimonials seen via the practice's website at <http://www.greatskinkc.com> .

About AesthetiCare: AesthetiCare opened a new office location in Lawrence six months ago, making it the only Medspa in Lawrence. Their menu of services has also expanded to offer nearly every non-surgical aesthetic treatment available anywhere in the country, including laser hair removal, laser tattoo removal, dermal fillers, and an array of other services. Since opening the first location in Leawood in 2001, AesthetiCare began with one laser, but have rapidly increased to house 18.
