

## USATInc Delivered PRIMS, a Custom Software Developed for Quantum Chiropractic

Written by Australian Business

---

ROYAL OAK, MI, September 21, 2013 /24-7PressRelease/ -- As the user acceptance testing of PRIMS is nearly ending, Quantum Chiropractic will soon start enjoying the improved business process efficiency. PRIMS will enable Quantum Chiropractic to store the soft copies of patient documents as well as facilitate better patient treatment history management.

"We are proud to be trusted IT Consultants and Custom Software Development service provider for Quantum Chiropractic. We are happy to help them remove bottle necks, grow their business with tailored IT Solutions that fit their needs," said Sreedhar Kaluva, CEO of USATInc.com.

About Quantum Chiropractic Quantum Chiropractic practice is dedicated to the Lord Jesus Christ and to the service and care for patients. Dr. Linda Ann Hansen's intent is to expand her knowledge and expertise as a Doctor of Chiropractic through continuing education and training in order to provide the service necessary to treat her patients effectively, and to provide an atmosphere of compassion and hope to further support and nurture those with health concerns. The varied techniques she uses all focus on removing blockages to the flow of energy in the body so that the body can function optimally.

About Unique Solutions of Advanced TechnologiesUSATInc.com is the online presence of the company. They provide quality, reliable and cost effective IT Solutions that eliminate bottlenecks and frustration in running a business. USATInc.com is helping customers achieve success via custom software development, custom programming services, legacy applications management, IT consulting, and staff augmentation services. Their service offerings aimed to improve business operations, business efficiency and profitability.
