

NASHVILLE, TN, August 23, 2013 **/24-7PressRelease/** -- TrackPoint Systems (TrackPoint), an award winning provider in asset management hardware and software solutions, is pleased to announce that Sprint Energy Services and Sprint Waste Services have chosen TrackPoint Systems as their asset management provider partner. Sprint is working with TrackPoint to equip their revenue producing assets with TrackPoint GPS devices that include frac tanks, roll off containers, company vehicles as well as other equipment pertinent to their operation. The installation of these devices will assist Sprint to improve their customer services as well as improve operational efficiencies.

About Sprint Companies: The Sprint Companies serving Houston and the Gulf Coast for over 30 years and currently employing over 500 personnel, the Sprint Companies own, operate and invest in a variety of niche materials, solid waste and real-estate development businesses throughout the Greater Houston area. While each of the Sprint Companies operates independently, they are strategically positioned so that a customer may utilize multiple services through any one of the companies for an efficient, well-managed and cost-effective project. Visit their websites at: www.sprintcos.com , www.sprintwaste.com , www.sprintenergy.com

About TrackPoint Systems:TrackPoint Systems, LLC is an award winning provider of asset management hardware and custom-engineered software solutions whose competitive advantage is its patented energy saving battery management processes, wireless sensory capabilities and peel and stick installation process. TrackPoint's patented solar-powered Tr/IPS device has revolutionized untethered asset management by providing real-time actionable data. TrackPoint is privately-held and located in Nashville, TN.
