

MCLEAN, VA, September 06, 2013 **/24-7PressRelease/** -- Corcentric has added a powerful new multi-currency functionality to its automated centralized billing solution for Daimler Trucks North America's (DTNA) Pinnacle Fleet Solutions Program. This new feature will allow U.S. and Canadian participants in the program to use their existing account even if that dealer is operating in a different currency. Corcentric has streamlined this entire multi-currency management process to enable Pinnacle participants to manage their spend in their preferred currency across borders.

"Corcentric's automated cross currency application allows Pinnacle Fleet Solutions participants to make purchases on their existing Pinnacle account in other countries by having all their purchases processed in their currency of origin. Now fleets can utilize all of the value which the Pinnacle Fleet Solutions brings to them no matter what country their business takes them," states Dave Lindeen, Senior Vice President of Corcentric.

About Corcentric Corcentric is a leader in financial process automation, specializing in Centralized Billing solutions, and Accounts Payable automation. By creating a paperless conduit between procurement, Accounts Payable, Accounts Receivable, and Suppliers, Corcentric allows companies to immediately manage 100% of their back office processes electronically. Our cloud-based (SaaS) architecture allows for solutions to be configured in days rather than months for rapid return on investment.

Corcentric was founded in 1998 and is headquartered in McLean, Virginia with offices in Cherry Hill, NJ; Downers Grove, IL; Coral Springs, FL; and Fairfield, NJ. More than 3,000 companies rely on Corcentric to streamline their electronic invoicing and payment processes to gain controls and efficiency while optimizing working capital.
