NORCROSS, GA, September 10, 2013 /**24-7PressRelease**/ -- Summer heat can be unbearable throughout the Southeast, and that heat forces many event hosts to reconsider any outside event plans. Fortunately, [Atlanta event rental](#) company, Event Rentals Unlimited, has the perfect solution to your summer heat woes: misting fans.

Misting fans are one of the newest rental items available through Event Rentals Unlimited. The company chose these fans for their exceptional quality and design. Each fan stands on its own and has a set of wheels to help make it easy to move when needed.

In Georgia's sweltering heat, misting fans offer a far more efficient method of cooling than standard fans do, especially under an [Atlanta tent rental](#). The cool mist fills the air and helps to keep temperatures lower for longer, even once the fans have been turned off or moved. The mist is aerosolized so that it does not cling to your guests, which keeps them cool without getting them uncomfortably damp. When you are arranging your [Atlanta party equipment rental](#), don't overlook the benefits of misting fans.

"Guests grow frustrated and angry when they are overheating, especially in their nice clothes," says Tim Dodd, General Manager of Event Rentals Unlimited. "That doesn't make for a pleasant event for anyone. We want to ensure that your event is perfect in every way, and we feel that the excellent climate control our misting fans offer will help to keep your guests cool and happy."
