SBS Consulting

Outsourcing the non-core business needs of the clients to us will give them the freedom to focus on the core functions of business.

SINGAPORE, September 21, 2013 /**24-7PressRelease**/ -- Among the other business services, SBS Consulting, through its professional team of accountants, bookkeepers and auditors is very pleased to announce its Singapore accounting, bookkeeping, and auditing services for its highly valued clients.

SBS consulting, a renowned accounting firm in Singapore is pleased to announce the addition of accounting services along with bookkeeping and [auditing solutions](#) to its list of business services offering. Available to all industry types, accounting, bookkeeping and auditing services will provide clients the opportunities to outsource their all their business needs to SBS.

Handling everything from accounting, maintaining financial book of records, reconciliation of bank accounts, preparation of balance sheet and auditing needs, this addition proves to be an invaluable one to the portfolio of SBS Consulting. These services will provide the clients with comprehensive, innovative and accurate solutions of accountancy, bookkeeping and auditing in Singapore.

Singapore accounting service of SBS covers all aspects such as recording full set of account transactions, preparation of cash flow statements, bank and other account reconciliation, compilation of financial statements, XBRL statement preparation etc. The company is pleased to offer its [professional accounting services in Singapore](#) , as it has the ability to reduce the accounting needs, expense, and burden of their clients while offering a multitude of useful services.

Commenting on the launch of accounting services, Business head of SBS consulting said, "We specifically concentrate on basic to multifold accounting needs of client's business in accordance with the rules and regulations laid by IRAS and ACRA."

"Outsourcing the non-core business needs of the clients to us will give them the freedom to focus on the core functions of business." SBS added.

The various functions and activities involved in [bookkeeping services](#) of the company are Preparation of profit and loss statements and balance sheets, fixed asset ledger, general account filing, financial analysis, cash flow statements, etc. Statutory audit, non-statutory audit and business review are the primary concerns of their audit services.

Accounting, bookkeeping and auditing are the three business languages of every organization. These aspects help the business owners maintain successful business, keep track record of their financial transactions and figure out actual picture of financial health of the companies. So, no one can afford to ignore these three essential elements of business at any cost.

To ease out the burdens of non-core business activities from the hands of business owners, SBS Consulting has taken this initiative to launch effective and knowledge-driven solutions for accounting, bookkeeping and [auditing](#) needs. These services will enable the clients to focus solely on core business activities, work in compliance and increase business productivity. SBS Consulting Pte Ltd. provides professional, effective and dependable services business owners can depend on.
