

SALT LAKE CITY, UT, October 17, 2013 **/24-7PressRelease/** -- Utah-based US Translation Company (USTC) and Michigan-based business development firm PryMarke, LLC have signed an affiliate agreement to further facilitate their respective clients' expansion in global markets. By offering a wide range of translation and interpretation services in more than 100 languages via the 4,000 qualified translators within the USTC organization, this affiliation complements the capabilities of both firms engaged directly and indirectly in new business development worldwide.

## **PryMarke LLC**

Since 2004, PryMarke has been involved in global business analytics and development specializing in providing service to mid-sized firms engaged in a variety of industries including aircraft, import/export, manufacturing, education, and information technology. Bryan Christiansen, PryMarke's president, is an established author of reference books related to business, culture, and contemporary globalism. Additionally, Christiansen realized many of his foreign colleagues are often reluctant to publish their scholarly research due to concerns their original work in languages other than English could be mistranslated or misrepresented. USTC's highly experienced and specialized linguists assure academic work in different source languages will be accurately translated into English for publication in top professional journals and books.
