

CORAL SPRINGS, FL, November 20, 2013 **/24-7PressRelease/** -- The producers of Net Worth Commerce TV with Terry Bradshaw are proud to announce a special segment about the Affordable Care Act (Obamacare). Featured guests will focus on how the Affordable Care Act will affect businesses across the United States. Viewers from small business owner to owners of large corporations will learn how the Affordable Care Act affects their bottom line. Experts will explain how the issues the government is having will or won't affect what they provide for employees. Viewers will learn about timelines, requirements, regulations and more. This interesting and informative segment will air on most cable networks this fall.

The Net Worth Commerce TV show is a viewer favorite among the financial and business sectors, as well as with managers of all levels and entrepreneurs. It offers new and contemporary formats which keep viewers tuned in with topics ranging from new products and technologies to new software, and strategies which help businesses increase revenue, cut costs and improve overall business practices. It is a leader in informative and educational programming.

The program covers many topics in different fields such as technology, finance and business. It explores stories of interest to professionals and introduces the viewer to emerging technologies and companies paving the way with unique products and services. The show is headquartered in South Florida and films on location throughout the United States and Canada. It airs nationally and regionally on cable television networks.
