

McCusker and Company Implements New Human Resource Program

Written by Australian Business

DALLAS, TX, December 05, 2013 /**24-7PressRelease**/ -- McCusker & Company, a leading worldwide provider of consumer and commercial extended warranty services, today announced that it is implementing a new human resource program to ensure workplace safety and staff accountability for excellence in customer service.

"Our new human resource program will prepare our team members for our future expansion and public capital raising milestones," said McCusker Holding Company Chief Executive Officer Will McCusker, "We want to ensure all of our team members are focused together towards maintaining a safe workplace that is truly dedicated to customer service excellence."

The cornerstone of the new workplace safety human resource program is a commitment to a drug free workplace. As a part of the program, the company will now test all employees randomly on a monthly basis.

"Many of our manufacturing partners have similar health programs in place and we want to follow that same standard," McCusker said. "Ensuring team member compliance is critical to the future success of our company."

Dallas-based McCusker & Company is a leading firm offering custom product protection solutions for a wide variety of consumer and commercial industries. The company specializes in fulfilling the underwriting, licensing, and administration requirements for international warranty and service programs.

Their comprehensive solution includes data administration; customer service; repair and depot facilities along with national onsite service maintenance and installation. They serve the electronics industry; HVAC; LED lighting; precious metals and auto parts industries among many others.
