

PryMarke, LLC Opens Office in Adana, Turkey in January, 2014

Written by Australian Business

ANN ARBOR, MI, January 10, 2014 **/24-7PressRelease/** -- The executives of Michigan-based PryMarke, LLC have announced the opening of a new office in Turkey. Mr. Murat Salmamli, a native of Mersin, Turkey, shall be in charge of the operations to include projects such as wind power generators, large medical diagnostic equipment, and atmospheric water generation systems.

A special market includes oil & gas equipment since Turkey is surrounded by 73% of the world's proven oil reserves and 72% of the world's proven gas reserves. Turkey's role as an energy transit hub is increasingly important. It is key to oil and natural gas supplies movement from Russia, the Caspian region, and the Middle East to Europe. Turkey has been a major transit point for seaborne-traded oil and is becoming more important for pipeline-traded oil and natural gas.

"Mr. Salmamli has a superb network of contacts in the country and possess extensive business experience. He is perfect to lead the company's new office in Turkey," said Bryan Christiansen, PryMarke's Chairman since 2012. Christiansen founded the company in 2004.

The new office will begin operations in January, 2014. Mr. Salmamli is a veteran business person with a background in manufacturing and marketing / sales of various product lines. "We are currently involved in discussions with investors in North America and China about establishing major manufacturing projects here in Adana," said Mr. Salmamli. Adana is one of Turkey's first industrialized cities, as well as one of the country's most economically developed areas outside of Istanbul. Adana was named in the recent past among the "25 European Regions of the Future" by "Foreign Direct Investment" magazine.

PryMarke Turkey joins a list of growing offices carrying the PryMarke name. PryMarke Europe was established in London, England in April, 2013, and PryMarke Russia began operations in Moscow in June, 2013. Other offices are planned in 2014 in Bulgaria, Hungary, Poland, and the Ukraine.

For further information on PryMarke Turkey, please contact Mr. Murat Salmamli per below:
