

SACRAMENTO, CA, March 25, 2014 /**24-7PressRelease**/ -- JS Crockett Consulting, a nonprofit consulting company, has offered this signature nonprofit start up service since 1997 with the goal of helping busy executives, professionals, and retirees complete the foundational process of obtaining tax exempt 501 c 3 status and to do this in a way that would be easy for them.

With this service, clients are able to continue with their daily activities while allowing JS Crockett Consulting to take care of 95% of the process. All of the clients that have used this service have been approved to-date.

Although JS Crockett Consulting is not responsible for the final approval for 501 c 3 organizations, the company communicates with government agencies like the Internal Revenue Service to ensure accuracy and to learn of the most updated changes that could impact the approval process.

As an additional option for those professionals who choose to do the paperwork themselves, JS Crockett Consulting offers a series of free videos and templates for purchase to assist with this process. For more information on either the nonprofit start up process or the video series, go to: <http://www.jamilacrockett.com/nonprofit-start-up.html>

Since 1997, JS Crockett Consulting Group has provided consulting solutions to organizations throughout the State of California and nationwide. Our solutions include consulting services, workshops, and products. We specialize in solutions in the areas of project management, process evaluation/ analysis, strategic planning, vision/mission development, and nonprofit start-up.
