FORT WORTH, TX, April 07, 2014 /**24-7PressRelease**/ -- McCusker Holding Corp., a Colleyville-based firm focused on end-to-end consumer and commercial technology service solutions, has acquired a majority stake in Winston-Salem, N.C.-based Computer Tree, a provider of global procurement and technology training centers.

"Computer Tree enables us to extend our consumer and commercial suite of services into the very important training element," said McCusker Holding Company Chairman Will McCusker. "As technology advances, training for workers becomes even more critical. This vertical will provide McCusker Holding Company with growth opportunities for many years to come."

Computer Tree is an Apple Certified Training Center with offices located in Winston-Salem, N.C. and Atlanta. The firm specializes in providing professional integration and training services supported by the most talented technology professionals in the industry. These centers offer Apple IT certification training, Apple Repair Technician certification, Apple Professional Application certification and Adobe Authorized Training.

"This was a very valuable addition to our suite of technology services for businesses," McCusker added. "Their specialty in providing integrated solutions at the enterprise level is where the future is in our technology strategy."
