

ALBANY, NY, April 08, 2014 /**24-7PressRelease**/ -- **About Dawn M. Costello**

Dawn M. Costello is Operations Director. E. Client Services, in Boston for FIS Financial. Ms. Costello's skills and expertise in banking, debit/credit cards, relationship management, loans, outsourcing, project management and team leadership has made her an invaluable asset to FIS.

Dawn Costello is a graduate of The New England Banking Institute, Bentley University and Massachusetts Hospital School Respite Care Program. Ms. Costello holds an Executive Mail Center Managers certificate and attended the Project Management Institute for certification.

Ms. Dawn Costello began her career as a Bank Manager for the Bank of Boston in 1986. Through hard work and steadfast dedication she quickly advanced and became Statement Manager for Sovereign Bank, a public company with over 10,000 employees.

Dawn M. Costello's accomplishments did not go unnoticed by the management team at FIS. In June of 2003, Ms. Costello was offered a position at FIS; Information, Technology and Services. For the past 10 plus years, Dawn M. Costello has become one of the shining stars at FIS. With an extensive background and training in the financial field, her 25 plus years of experience has made her the perfect fit for the vital position she currently holds at FIS.

Ms. Dawn Costello strives to keep abreast of the ever-evolving field of banking technology. As a member of the American Banking Association (ABA), Bank of Boston Former Employee Association, National Association of Professional Women, PPC, NPPC, Sovereign Bank Alumni and Payment Systems Network, she remains ahead of the curve in the fast paced field of Finance and Banking Services.

### **About FIS**

FIS is a leading global provider of technology, training, education and services to the financial industry. Today, serving more than 14,000 clients and their employees in over 100 countries, FIS has evolved into a world-renowned financial services and technology leader.

FIS was founded in 1968 as Systematics and quickly became a globally recognized provider of technology solutions for financial situations. From its beginnings in 1968 until present day, FIS has acquired and merged with several other financial institutions thus broadening its ability to service, train, problem solve and offer their a more extensive resource for all their financial needs.

As a direct result of merging and acquiring these companies over the past 47 years, FIS is now able to offer core processing, channel solutions, mortgage processing, item processing, cash management and more. In the last 15 years, FIS has continued broadening its services with changing technology. Their breadth of services now include but are not limited to loyalty programs, stored-value cards and processing, check authorization and warranty services, payment card and transaction services, check cashing services, electronic bill payment services, check and credit card verification, ATM services and fraud/risk management services.
