

Green Box Food's CEO Dr. Keith Kantor Joins The Advisory Board Of VetCV

Written by Australian Business

NORCROSS, GA, July 26, 2014 **/24-7PressRelease/** -- Green Box Foods announces that its CEO, Dr. Keith Kantor has joined the advisory board of VetCV, which creates technology solutions that help our nation's veterans and care givers control their military, medical, and personal information, careers, and easily access support resources and benefits. Dr. Kantor will bring needed expertise in wellness, fitness, and nutrition to VetCV and its ongoing efforts to promote a healthier lifestyle. In addition to Dr. Kantor joining the advisory board of VetCV, the two organizations will work in tandem in preventing chronic disease through proper nutrition, and a proper diet not just to veterans but to the entire population to decrease the need for excessive management and costs that are associated to health problems caused by failing to develop a proper wellness plan in daily life.

"I am very honored and humbled to have been asked to join the Advisory Board of VetCV," said Dr. Keith Kantor. "As a Marine and one who knows the sacrifices that every member of our armed forces makes, I can think of no more worthy organization to be a part of than VetCV.

"Proper nutrition and wellness is an issue that veterans and indeed the entire population grapple with daily," continued Kantor. "Working with VetCV, Green Box Foods can be a resource on how to live a healthy lifestyle and develop a wellness and nutrition plan that will help keep down health costs by preventing chronic diseases. We can help address some of the major challenges that our veterans and the entire population face."

Currently in Beta testing, we are excited the VetCV launch will be in early first quarter 2015. VetCV provides a secure vault (Web App), where our Nation's heroes can regain control of life events and be heard by collectively, having a voice backed up by facts and data, a data driven solution. VetCV is an App where Veterans and their families can track and manage their healthcare activities, make appointments, request status data, safely store valuable medical, military and personal records, track important life events, manage their careers, and store precious memories. It provides a platform for Veterans to build a personal support network with other VetCV members. VetCV provides Veterans and caregivers the ability to update, access, and share their vital information from anywhere at anytime. It is the personal account for all the most important things for the next steps in life, career, education, medical support, reintegration, and employment. VetCV is a place to come home to.

The mission of VetCV is to continuously create technology solutions that help our nations Veterans and Care Givers (a Population of over 100 million) control their military, medical, and personal information, careers, and easily access support resources and benefits. VetCV puts control of information back in the Veterans' hands.

VetCV Main Components:

VetCV - Web and Mobile App for Veterans, Family Members, and Caregivers
Quick and easy Clinical Informatics (Ki) sharing and retrieval at their fingertips (Medical history and documents)
National Registries and Network databases for Federal and State Government as well as industry Partners providing support, products, and services to our nations Veterans, Active Duty, Reservists, and Guardsmen including their families
Predictive Analytics and Artificial Intelligence database engines enabling the system to begin identifying patterns which could possibly prevent a Veteran from going down a path of eventual homelessness or even suicide.

With the collaboration with Green Box Foods, VetCV will be able to address wellness and nutrition issues for veterans.
