

FMA Summits: 19th Progressive Energy Summit Was Best Yet

Written by Australian Business

MONTREAL, QC, October 29, 2014 **/24-7PressRelease/** -- FMA Summits held the highly successful summit at the Westin Lombard Yorktown Center in Chicago. FMA's Progressive Energy, Environment & Sustainability Summit #19 (PEE 19) had 189 delegates interacted with 25 partner companies to offer solutions on a range of energy-efficient and cost-effective technologies in 275 scheduled meetings. Delegates were enthusiastic in their praise for the organizers, citing informative presentations and productive conversations with FMA's partners.

"I really like the format that FMA uses," said Al Hildreth, Company Energy Manager for General Motors. "The networking part was very advantageous to us; a focused approach and a limited number of people allowed time for detailed discussions."

[FMA Summits](#) is a strategic partner for driving business forward, facilitating relationships between managers and operators of commercial and industrial facilities and companies that offer energy-efficient, cost-effective solutions for their facilities. The company has organized 19 corporate summits since its inception in 2006. Solution providers present at the three-day conference in May included returning partners: US LED, Kaeser Compressors, Advanced Power Technologies, Armstrong Fluid Technologies and AERCO International, together with new partners: LG Electronics, GE Lighting, Jones Lang LaSalle, EDF Renewable Energy and DTE Energy. The two latter partners added a Renewable Technology track to the summit.

FMA Summits' next event will be from November 17-19 2014 at the Westin Buckhead in Atlanta. This will be the 20th in the series and will feature an adjacent event focused specifically on sustainability in manufacturing. For more information, visit <http://www.fmasummits.com> .

"Our November summits will be the sustainability events of 2014," says President and Founder Joe Piazza. "We have prestigious speakers for both summits and are very excited about Atlanta."

Founded in 2006, FMA Summits facilitates relationships between managers and operators of commercial and industrial facilities across North America and companies that provide the solutions that will allow for energy efficiency, as well as, cost and usage reduction within their facilities. For our Partners, our services offer an effective strategy for increased sales.
