

FMA Summits Launches 20th Progressive Energy, Environment Sustainability Summit

Written by Australian Business

ATLANTA, GA, November 05, 2014 **/24-7PressRelease/** -- Progressive Energy, Environment & Sustainability Summit #20 (PEE 20) will take place at the Atlanta Buckhead Westin, November 17-19, 2014.

"This will be the 22nd summit overall," says President and Founder Joe Piazza. "2014 has been an exciting year for FMA Summits and we look forward to continuing to provide exceptional service and value to delegates and partners as we prepare for the November summit."

FMA Summits is honored to welcome returning partners such as Solutions Dynamics, attendees at FMA's very first summit and nine summits following that. Other returning partners are: Kaeser Compressors, Advanced Power Technologies, Covanta 4 Recovery and USLED.

Presentations will also be given by companies such as: Abbot Laboratories, BASF, Kimberly-Clark, Lear, LORD Corporation and Raytheon. These new delegates will be presenting on emerging technologies, innovations and success stories as they work together to achieve improved energy efficiency and sustainability. At this time, over 150 delegates have confirmed attendance, including representatives from such companies as 3M, Coca-Cola, Crayola, Husqvarna, Interface, Norton Healthcare and Saputo.

[FMA Summits](#) is a strategic partner for driving business forward, facilitating relationships between managers and operators of commercial and industrial facilities and companies that offer energy-efficient, cost-effective solutions for their facilities. The company, which has organized 19 corporate summits since its inception in 2006, offers its partners effective strategies for increasing sales.

FMA's 20th PEE Summit follows on its highly successful 19th Summit held in Chicago in May of this year. According to delegate John Brody, National Sales Manager at AERCO International, "[The 19th Summit] was highly effective at building relationships with high-level decision makers at our major customers."

Founded in 2006, FMA Summits facilitates relationships between managers and operators of commercial and industrial facilities across North America and companies that provide the solutions that will allow for energy efficiency, as well as, cost and usage reduction within their facilities.
