

PITTSBURGH, Oct. 9, 2013 /PRNewswire/ -- **SWAT Environmental makes Inc. Magazine's 5,000 Fastest Growing Companies!**

As the cases of lung cancer leading to death grow in the United States, cigarette smoking, although still the leading cause, is rapidly being pursued by radon, a deadly gas found in older buildings.

[SWAT](#)

[Environmental](#)

, the leading mitigation service in the US, has demonstrated the need for professional mitigation.

These companies are placed on a list in Inc. Magazine in order of their profits and growth. [SWAT Environmental Company](#)

, located in

Holt, Michigan

, was honored among the top 5,000 fastest growing companies in the US by Inc. Magazine for 2013.

There are various mitigation companies in the US, yet [SWAT Environmental](#) has outdone them all. "SWAT Environmental was placed on the list of the top credible businesses, America can trust," said

Aaron

Fisher

As with all entrepreneurs, the founders of [SWAT Environmental](#) undoubtedly can admit to some degree of stress and strain to start up their business. SWAT Environmental may cite difficulty in attempts at getting public awareness regarding the radon dangers.

[SWAT Environmental](#) , focusing on lung cancer, a health issue of the nation, and the part radon plays, finally got the attention of the American public. Now thanks to Inc. Magazine, more homeowners and corporations are becoming proactive and looking at the possibility of their buildings being radon exposed.

Cigarette smoking, for the most part, is voluntary. [SWAT Environmental](#) has discovered that radon gas can be inhaled anywhere there is old decayed wood or stone. Inc. Magazine notes that the dedicated staff at SWAT Environmental has developed a thorough process of mitigation to detect radon's presence anywhere.

Once radon is detected [SWAT Environmental](#) follows up with installing a mitigation system which measures and helps to eliminate radon fumes. Inc. Magazine stated that over 10,000 radon gas mitigation systems were installed in commercial and residential buildings by SWAT Environmental services in 2011.

This report of [SWAT Environmental](#) , obtained from the US Environmental Protection Agency (EPA), was what caught the attention of Inc. Magazine and on investigating SWAT Environmental's business profile, discovered the incredible business they were doing.

Inc. Magazine cited the services of [SWAT Environmental](#) which include air purification, water borne radon reduction, and residential and commercial radon mitigation. Inc. Magazine will be closely monitoring this company's growth and development and its rise in position.

With a prestigious company of Inc. Magazine's reputé taking note and honoring the [SWAT Environmental](#) services, placing it on an Inc. Magazine list, it is clear that SWAT Environmental is a company owners of buildings in the US can trust with their radon mitigation issues.
