

Singapore-- [Media OutReach](#) --25 November 2013-- [Abeo Electra](#) , a provider of IT Solutions and Services, has announced its joint partnership with [Datawatch](#)

, the leading global provider of visual data discovery solutions , to deliver clear and effective visual analytic solutions to SMEs (small and medium enterprises) and large organisations.

Through this partnership, clients from industries ranging from retail and hospitality to engineering, construction and manufacturing will benefit from the technology, which is capable of presenting meaningful analysis of data with speed, accuracy and efficiency.

"More companies have begun to recognise the importance of analysing and optimising relevant data, which is vital for improving and enhancing decision making. We chose to partner with Datawatch because they are experts in their field and can add value to our business. Visual Data Discovery for SAP can help SMEs and big companies to manage and analyse large amounts of data easily and accurately," said Michael Lim, Chief Executive Officer of Abeo Electra.

"We are delighted to be the partner of choice for Abeo Electra, and are very proud to present the Visual Data Discovery for SAP to existing and future clients," said Karl Mouantri, Managing Director of Asia Pacific Datawatch

. "What appealed to us about Abeo Electra was their exceptional understanding of Visual Data Discovery, Business Intelligence and Big Data, which makes them well-positioned to successfully represent us across the ASEAN region."

Datawatch provides the ability to integrate structured, unstructured, and semi-structured sources of data with real-time streaming data into visually rich analytic applications. Such visual formats help to unlock valuable insights from static reports and other text-based files for ease of management and analysis. With a reliable information infrastructure in place, businesses will be able to diagnose and assess patterns, define areas for improvement and determine opportunities for competitive advantages, which are vital for companies that want to grow.

With Visual Data Discovery, Abeo Electra can further reach out to businesses across South-East Asia and other emerging markets with one of the most cost-effective and compelling business IT solutions in the region. Available immediately, the Visual Data Discovery for SAP will be a value-add to their comprehensive list of end-to-end IT Solutions and Services.
