

ChinaCache Appoints Mr. Wang Jiang as CTO

BEIJING, CHINA-- [Media OutReach](#) --8 January 2014--ChinaCache the leading total solutions provider of internet content and application delivery services in China is pleased to announce the appointment of Mr. Wang Jiang as the company's CTO with immediate effect. Mr. Wang will be responsible for planning, development and implementation of the company's overall technology infrastructure. He will spearhead the establishment of a new technology platform to support future technology innovation and development of the company.

The founder, chairman and CEO of ChinaCache, Mr. Wang Song expressed a warm welcome for Mr. Wang Jiang's joining, and said that Wang Jiang not only has vast experiences in managing international and domestic internet industry, but is also very proficient in cloud computing and in technical infrastructure of big data analytics. We firmly believe with his appointment he will lead ChinaCache to achieve greater progress. The technical team of ChinaCache will benefit from his experiences and with his leadership, they will achieve excellent results especially in the new breakthroughs of cloud computing.

Mr. Wang Jiang graduated from Tsinghua University and American George Mason University where he obtained Management Science, Computer Science Master Degree. He was one of the doctorate candidates in American George Mason University. He has worked in Google U.S. Headquarters and was in charge of the architecture development of the system framework for Google Payment and Google Social products of Google China. After returning to China in 2010, he worked as the Chief Architect and Alliance CTO in Innovation Works and as Deputy General Manager in Goso.cn. While working in Goso.cn, he was responsible for building a new generation of large scale search engine platform, and successfully developed a scale that covers 80 billion web pages search engine platform and constructed over 4,000 server cluster scale cloud platform architecture to support users' search of all products and services.
