

This Mid-Autumn Festival - Pick Fruit. It's Fresher.™

Written by Australian Business

HONG KONG, CHINA -- [Media OutReach](#) -- 14 July 2014 -- [Edible Arrangements® Hong Kong](#) once again surpasses expectations of traditional Mid-Autumn Festival celebrations! This year we are introducing a third-year generation of fresh fruit mooncakes - improved profound taste using the highest quality ingredients available worldwide. Our mooncakes, Mid-Autumn Daisies, are crafted with the traditional form in mind, however, we create a quintessential modern version of the mooncake with the core of delicate, fresh pineapple topped with gourmet semi-sweet chocolate.

Each mooncake daisy is carefully crafted by hand and the entire process from its inception to the final gift is controlled very step of way. Freshest fruit is picked by our Fruit Experts® every day; only the best produce is used in the production. Our pineapples originate from all over the world, depending on seasonal changes and availability. Each mooncake daisy is then sculpted from a juicy pineapple and prepared for the final stages of chocolate dipping. The process is delicate and thoughtful; it allows for the most delicious mooncake daisies to be crafted and delivered to our guests.
