

## Joachim Kopp receives ERC Starting Grant for research in particle and astroparticle physics

Written by Business News

---

Professor Joachim Kopp receives a prestigious Starting Grant worth EUR 800,000 from the European Research Council (ERC) to help promote his work in the field of theoretical particle and astroparticle physics. Working at the Cluster of Excellence "Precision Physics, Fundamental Interactions and Structure of Matter" (PRISMA) of Johannes Gutenberg University Mainz (JGU) in Germany, Kopp's special interests are neutrinos and dark matter. He will be using the ERC Starting Grant to pursue new approaches in theoretical neutrino physics.
