

Making Smart Materials Even Smarter – Earns an Engineer a Prestigious Air Force Award

Written by Business News

Virginia Tech's Pablo Tarazaga, an expert in the field of smart materials, has received a prestigious 2015 Air Force Young Investigator Award, valued at \$449,600 over a three-year period. Tarazaga, a mechanical engineer, is one of only 57 scientists and engineers in the U.S. to receive this honor.
