

LAS VEGAS--([BUSINESS WIRE](#))--Medical Cannabis Payment Solutions (OTC Bulletin Board, REFG), today announced the launch of Ghost, the only mobile application platform built specifically for the medical marijuana industry. The platform allows dispensaries to create their own privately labeled mobile app with features including push notifications, in-app messaging, social media integration, e-commerce, third-party integration and multimedia. The platform works on both Apple and Android platforms.

"We're building the most forward-thinking platforms in the industry. Ghost was designed with breakthrough features that really matter to people."

Jeremy Roberts, CEO of Medical Cannabis Payment Solutions said, "We're building the most forward-thinking platforms in the industry. Ghost was designed with breakthrough features that really matter to people."

The Company will begin taking orders immediately and plans to showcase the platform at the National Marijuana Business Conference in November. Medical Cannabis Payment Solutions will continue to provide cutting-edge solutions for the medical marijuana industry, projected by *Entrepreneur Magazine* to be worth \$8.9 billion by 2016.

Medical Cannabis Payment Solutions, Inc.

Our mission is to provide end-to-end management, across multiple management systems, for medicinal marijuana operations. Many medicinal marijuana companies have experienced such rapid growth that they are finding it difficult to manage all aspects of their operation. In order to become a successful and compliant medicinal marijuana operation, effective management must depend on many different systems. REFG solves the fragmentation problem by identifying tools that are important to dispensaries, and customizing those tools specifically catered to the industry. We strive to create awareness within the medicinal marijuana industry and to develop an environmentally friendly, economically sustainable business while increasing shareholder value.
