

Blacklane is Now Available in the United Arab Emirates!

Written by Australian Business

BERLIN & DUBAI, United Arab Emirates--([BUSINESS WIRE](#))--The chauffeur service provider Blacklane fortifies its leading position in the International market, and expands its area of operation to the United Arab Emirates. Following the success of its launches in New York City and Hong Kong in recent weeks, expectations for Dubai are equally high.

“Our aim is to accompany our customers globally, wherever they want to go.” explains Dr. Jens Wohltorf, co-founder of Blacklane, adding, “Given that Dubai is a major destination for travelers and commercial visitors from all over the world, launching the service in the Arab world was a logical step.”

“Dubai and its visitors demand a service of the highest quality, and want to be treated with luxury and comfort,” Wohltorf, says. “Our limousines and chauffeurs will take them where they want to go and leave nothing to be desired.”

Blacklane is firmly establishing itself as one of the leading international players in the limousine service industry. “Local providers welcome us wherever we show up, knowing that we’ll add to their revenue instead of diminishing it.”

Bookings can be made around the clock either online at www.blacklane.com or using the “Blacklane” smartphone app. After specifying their pickup location and booking period or desired destination, customers can choose from one of three classes of vehicles (Business Class, Business Van/SUV, First Class) at a binding, fixed price including all taxes. Cars can be booked up to fifteen minutes before the customer's required pickup time.

Blacklane limousines can now be booked in Australia, Austria, Belgium, Brazil, Canada, China (incl. Hong Kong and Macau), Colombia, Czech Republic, Denmark, Finland, France, Germany, Israel, Italy, Luxembourg, Malaysia, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Singapore, South Africa, Spain, Sweden, Switzerland, Turkey, the U.K., United Arab Emirates and the U.S.

About Blacklane

Blacklane is Now Available in the United Arab Emirates!

Written by Australian Business

Blacklane GmbH, a Berlin-based company, provides individual and corporate customers with a mobile booking service for high quality chauffeur services, with transparent and attractive rates. Acting as a head office for limousine services, Blacklane does not possess its own vehicles but rather partners with existing providers to allow customers to enjoy comfortable journeys at inexpensive, fixed prices. The company currently employs more than 60 staff members. Find further information at www.blacklane.com.
