LOS ANGELES, Nov. 22, 2013 /PRNewswire/ -- For the most highly-trained [plastic surgery](#) professionals and medical staff, as well as spa-like facilities and unparalleled patient service, residents throughout Southern California have come to trust the expert medical professionals at Beverly Hills Physicians. Though specializing in cosmetic treatments like breast augmentation and [tummy tuck surgery](#), their network of board certified health and beauty experts are experienced in a variety of medical procedures – and their patients are always eager to express their gratitude. Perhaps the best example of this is the many heartfelt patient testimonials written for BHP's own Catherine Begovic, MD, warmly known to many as "Dr. Cat".

"After having 4 kids my body was not what it used to be and I had a hard time looking at myself in the mirror," says one grateful [mommy makeover](#) patient. "I had always wanted to get back my body, but no matter how much I worked out I had extra skin and it grossed me out." The patient goes on to explain that after hearing about BHP specials on the radio, she made the decision then and there to change her life with exemplary services at BHP.

That same patient gushes that "everyone at the office is so nice and made me feel at ease. Dr. Begovic is the BEST! She explained everything to me and I felt confident in my decision. I went into surgery for what felt like a 15-20 minute nap and woke up transformed. Words can't express how GREAT I feel and I'm able to look at myself in the mirror again." She then sums up her feelings as succinctly as possible: "Thanks so much!"

Another patient seconds the praise for Dr. Cat. "I am so happy with the results of my procedure," she says, "and [Dr. Cat] was reassuring and helpful the whole way through. I was given realistic expectations and helpful advice the whole way through and I am so glad I decided to do this! Thank you!!"
