

Rambus Named Finalist in Three Categories for 2014 ACE Awards

Written by Australian Business

SUNNYVALE, Calif.--([BUSINESS WIRE](#))--Rambus Inc. (NASDAQ:RMBS), today announced it has been recognized as a finalist in three categories in UBM Tech's EE Times and EDN Annual Creativity in Electronics (ACE) Awards. Highlighting the finalist honors, Rambus CEO, Dr. Ronald Black has been named as a finalist for Executive of the Year for his significant achievements in executive leadership.

Rambus has also been named a finalist for its R+™ LPDDR3 offering in the Ultimate Products-Logic/Interface/Memory awards category. The R+ LPDDR3 memory architecture solution improves power consumption and performance in mobile devices. The architecture is fully compatible with industry standards allowing customers to improve and differentiate their products in a cost-effective manner with improved time-to-market. The R+ LPDDR3 architecture includes both a controller and a DRAM interface and can reduce active memory system power by up to 25% supporting data rates of up to 2400 megabits per second (Mbps) with a roadmap to 3200 Mbps.

"We are honored for the recognition of the hard work of our team, not only improving the management and operations of Rambus as a company, but also in building platforms and solutions that address the needs of our customers and partners," said Jerome Nadel, chief marketing officer at Rambus. "This acknowledgement reinforces the great strides we have made - from the top down – enhancing the company's ability to conceive, develop, and deliver relevant technologies and products."

Finally, the Rambus A19 LED bulb has been named a finalist in the Energy Technology Award category. This revolutionary bulb delivers the light output of a traditional lamp with the energy efficiency, durability and reliability of advanced LED solutions.

The Annual Creativity in Electronics (ACE) Awards celebrate the creators of technology who demonstrate leadership and innovation in the global industry and shape the world we live in. EE Times and EDN ACE Awards are judged by a blue-ribbon panel of industry experts, comprised of the leading voices of academia, industry executives and content experts. The ACE Awards winners will be unveiled during a ceremony on April 1, 2014, as part of UBM Tech's EE Live! Conference.

About UBM Tech
