

Blueberry Systems Announces Geoff Bastow as Senior Software Architect

Written by Australian Business

GREENWOOD VILLAGE, Colo.--([BUSINESS WIRE](#))-- [Blueberry Systems, LLC](#) , a provider of advanced technology solutions to the mortgage and financial services industries, announced that Geoff Bastow has joined the company as Senior Software Architect. Bastow's primary responsibilities will include the EOY 2014 enterprise platform project as well as web and mobile applications.

Bastow began his career in the financial services industry as a senior software engineer for Metavante (now FIS) in 1990 before leaving to co-found Tushaus Computer Services, a technical services firm that went on to be named to the Inc. 500 list of fastest growing privately held companies in America. Later, he co-founded Doral Systems Corporation, later named Doral USA, a two-time Inc. 500 member as well.

In 2001, Bastow was central in the effort to spin-off Mortgagebot from Marshal & Ilsley Corporation, after which he became a principle and founding CTO. Under his leadership, the firm delivered numerous award-winning innovations, including the first fully configurable SaaS application origination and approval platform. Bastow's other founding credentials include Thin Air Software, Credit Coach and SoloMortgage.

"I'm excited to join an elite team like the one assembled at Blueberry Systems," said Bastow. "We are doing some spectacular things here that are going to pay off for both our lender partners and their borrowers."

"Geoff brings a lot of talent and energy to our team," said CEO Wil Armstrong. "He's a perfect addition who will be crucial in our efforts to define industry solutions far into the future."
