

WILMINGTON, Del.--([BUSINESS WIRE](#))--Arkieva (www.arkieva.com), the designer and supplier of the Arkieva suite of advanced planning and scheduling tools, announced today it has been recognized as one of the 100 Great Supply Chain Partners by SupplyChainBrain Magazine. The top 100 list was chosen from nominations received for hundreds of solutions providers in every aspect of supply chain management.

SupplyChainBrain's 12th annual list of 100 Great Supply Chain Partners is the result of a six-month online poll in which supply chain professionals were asked to nominate vendors and service providers whose solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance.

"Congratulations to Arkieva for its inclusion in our prestigious list of 100 Great Supply Chain Partners," said Brad Berger, publisher of SupplyChainBrain. "This recognition highlights a select list of companies whose solutions and services have been so impressive, their customers took the time to write and let us know."

Arkieva, along with the other honorees, will be featured in the 2014 July/August issue of SupplyChainBrain Magazine. This is the sixth time Arkieva has received this award.

"We are honored to be selected as a top 100 Great Supply Chain Partner for 2014," said Sujit Singh, chief operating officer of Arkieva. "This award is particularly meaningful to us because it is based on nominations from managers who are using Arkieva software to meet their day-to-day supply chain challenges."

Arkieva software solutions provide a wide spectrum of product functionality, including demand planning, inventory planning, finite scheduling, production optimization, margin optimization and business intelligence. The collaborative aspects of Arkieva make it the backbone for many manufacturers' Sales and Operations Planning (S&OP) solution.

About Arkieva

Arkieva, founded in 1993, is the developer of Arkieva software solutions for global manufacturing supply chains. With headquarters in Wilmington, Delaware, USA, and offices in Antwerp, Belgium, and Mangalore, India, Arkieva is positioned to support multinational businesses around the world. Arkieva products enhance productivity and reduce operating costs in the supply chain, providing the full range of features necessary for effective Sales and Operations Planning (S&OP). Such major corporations as Momentive, INVISTA, Sunsweet Growers, Akzo Nobel and INEOS use Arkieva solutions. For more information, visit www.arkieva.com.
