(PRLEAP.COM) Costa Rica's only brewpub, [Volcano Brewing Company](http://VolcanoBrewingCompany.com) , is moving from Lake Arenal to the Pacific Coast and beaches of Tamarindo

Since first opening its doors in 2011, Volcano Brewing Company has been providing delicious microbrewed beer, tasty cuisine and plenty of smiles & unique experiences to a large part of northern Costa Rica, both locals and visitors alike. With a long-awaited plan for expansion in brewing capacity underway, and with a desire to be near the sand & surf of beautiful Playa Tamarindo, Volcano Brewing Company is beyond excited to open its new location.

"With our focus on quality and consistency, Volcano Brewing Company will continue to brew our flagship Witch's Rock Pale Ale and Gato Malo Dark Ale beers," says owner Joe Walsh. "We've launched an improved brewpub menu that offers gourmet burgers, grilled shrimp, steak and other locally-sourced dishes that pair great with our beer. The big secret is out though- We're opening a Volcano Brewing Company brewpub on the beach in Tamarindo late-2013!"

Volcano Brewing Company near Lake Arenal will keep its doors open to guests until August 28, at which point it will close and operations will be moved to the new location near [Witch's Rock](http://Witch'sRock.com)
