4. *THE RIGHT to a safe aircraft and a well-trained, well-rested crew.*
5. *THE RIGHT to get off the tarmac within three hours at the most.*
6. *THE RIGHT to have our luggage arrive when we do - or to compensation if it doesn't.*
7. *THE RIGHT to be treated like human beings onboard aircraft, with food and drink and seats and legroom that are safe and comfortable.*
8. *THE RIGHT to retain basic constitutional rights of privacy, free speech, travel, due process of law, freedom from unreasonable search and seizure when we enter an airport or board an aircraft.*

Mr. Hudson noted, "It has been 35 years since airlines were deregulated as to fares, routes, schedules and services. We are calling on Congress, President Obama and DOT Secretary Foxx to review the Airline Deregulation Act of 1978 to correct the consumer abuses, unfair or deceptive practices and inefficiencies that have infested and degraded the nation's air transportation system."
