and spend the day relaxing and recuperating from your flight (as well as adjusting to the time difference). On day two, you will get your London bus tour, visit London's best attractions, and take your cruise on the Thames. Big Ben, Westminster Abbey, and the Tower of London are just a few of the sights you will see today.

Your third day in Britain will be totally devoted to visiting Stonehenge, which is located about an hour and a half north of London out on the Salisbury Plain. It is a wide, open space with plenty of room for exploring all the archaeological and educational points in the stone circle's vicinity. You will learn all about Stonehenge itself, too. Something this ancient is not to be missed!

The fourth day is devoted to Downton Abbey. This day will include trips to streets that have been shown on the series, giving you a chance to look for familiar sights. The town of Oxford, where many exterior shots on the show are filmed, is included in your travels for today. The high point of the day is a visit to the historic private residence of Highclere Castle, which serves as the exterior for Downton Abbey itself. Highclere Castle is a sight to behold on Downton Abbey, and it is even more impressive in person. This 430 year old castle is the home of the 8th Earl and Countess of Carnarvon, and looking at it up close is like looking back in time.

The fifth day of your trip is when you depart Britain for home. However, you do have the option of extending your stay and doing some exploring on your own.
