

Commercial and Architectural Flooring Systems

Macarthur Region NSW

Specialist flooring business offering complete industrial, commercial and architectural solutions for developers and individuals.

For the past ten years the owners have been operating across a broad region of New South Wales with a focus on the major metropolitan and regional centers. The range of products and services includes - Concrete Floor Repairs, Polymer Modified Toppings, Concrete Toppings, Anti-Slip, Seamless and Impervious Epoxy Floor Coatings, Protective or Decorative Concrete Floor Finishes and much more.

The business has achieved a position where its quality products and workmanship generate new clients through customer referrals and word-of-mouth alone.

A new owner with more time to cultivate the client base through extensive advertising and marketing will see immediate results. With unique quality products and service, limited competition, and an established base of regular clients which continues to grow, this business is your ticket to achieving your financial goals.
