

TORRANCE, Calif., Sept. 19, 2013 /PRNewswire/ -- All Medical Solutions (AMS), the Healthcare division of Fusion Systems North America, announced today Amerinet®, Inc., a leading national healthcare solutions organization, has signed a new agreement that will make the AMS SPHER™ HIPAA Compliance Solution available to its members.

SPHER is a cloud-based audit log review and breach detection solution that not only audits electronic health records (EHRs) and detects breaches, but it actually learns the habits of each person in the healthcare organization. The pattern recognition system is what makes SPHER unique. It learns the routine of each individual in the practice and when something out of the ordinary is done, SPHER calls out that action via an alert email to the privacy/security officer of the healthcare organization. Available nationwide, SPHER benefits the following Amerinet Members: clinics, hospitals, integrated delivery networks, long term and extended care facilities, physician practices, and surgery centers.

"Our goal is to ensure that all Amerinet members are HIPAA security compliant. And by choosing our SPHER solution, they will be" said AMS Partner Andrew Kan. "We are proud to work with Amerinet and look forward to providing their members the SPHER audit log review and breach detection solution."

About Amerinet, Inc.

As a leading national healthcare solutions organization, Amerinet collaborates with acute and non-acute care providers to create and deliver unique solutions through performance improvement resources, guidance and ongoing support. With better product standardization and utilization, new financial tools beyond contracting and alliances that help lower costs, raise revenue and champion quality, Amerinet enriches healthcare delivery for its members and the communities they serve.
