) Oceanside cosmetic and family dentist, Curtis E. McRae, DDS, recently announced the launch of a new, patient-focused website created by

[dental website design](#)

leader, ProSites, Inc. Dr. McRae's practice is utilizing the website to educate the community on the importance of oral health. The website includes a comprehensive

[dental implants](#)

page with informative pre and post operation instructions for dental implants patients, and an impressive collection of dental videos that patients can examine to learn more about specific procedures.

"I want my patients feel absolutely comfortable with the level of service I provide, and that includes the treatment recommendations I give them. In the office, I can use our dental videos to educate my patients and show them more about the procedures I'm recommending before moving forward with any treatment," Dr. McRae said.

The website possesses interactive attributes including a free Smile Analysis feature to help patients make better informed decisions about their oral health. Current and prospective patients now have access to information about providers, helpful dental links, patient forms that can be printed out and brought to the office, and other informative content when they visit the website. Some of the services offered by Dr. McRae include:

Cosmetic Dentistry Family Dentistry Implant Dentistry The website also utilizes extensive search engine optimization techniques to reach patients and local consumers who are searching for relevant information about [family dentistry in Oceanside](#) .

"A website is a great thing to have for your patients who want to know about the latest in modern dentistry. It lays all the information out in an easily-readable format that isn't geared toward dentists, and it's all available whether our physical practice is open or closed," Dr. McRae said.

About Curtis E. McRae, DDS:

Dr. McRae has provided quality dental care to the North San Diego County community of Oceanside for more than 20 years. Dr. McRae began his dental career as a dental technician after graduating from the dental technology program at Orange Coast College.
