

ST. LOUIS, Sept. 25, 2013 /PRNewswire/ -- *ulrich medical* USA, Inc., today announced that it has moved its U.S. corporate headquarters to meet the demands of its rapid growth. The new facility at 18221 Edison Avenue, Chesterfield, Missouri 63005 is more than three times larger than its former location.

"We are very pleased to see our dynamic growth at *ulrich medical* USA," said Hans Stover, President and Chief Executive Officer. "We have tripled our number of employees in the past few years and this new building provides us with much needed space for our growing team as well as facilities for surgeon training programs, product labs and commercial distribution meetings."

"With *ulrich medical* USA experiencing a 60% case growth for the past two years and we are on target to deliver a profitable 25% revenue growth in 2013, we are delighted to have the space to expand our resources and add more professionals to our team," said Erika Laskey, Vice President of Sales and Marketing. "As a 101-year-old private, profitable, and family-owned company who now has 14 FDA cleared spinal implant products available in the US market, we are in the ideal position to pursue expansion of our leadership position in the US spine market. We are thrilled to see what the company has in store."

About *ulrich medical* USA, Inc. *ulrich medical* USA, Inc. is a privately-held subsidiary of *ulrich medical*®, an innovative medical technology company headquartered in Ulm, Germany which is celebrating its 101st year in business in 2013.
