

Surge in Smile Makeovers from West Hills Smiles Anticipated Following Magazine Blitz

Written by Australian Business

WEST HILLS, Calif., Sept. 26, 2013 /PRNewswire/ -- For a second month in a row, acclaimed dental office West Hills Smiles was included in Modern Luxury's *Angeleno* magazine. Featuring Jennifer Hudson on the cover of the fall fashion issue, the *Angeleno* appearance follows a veritable media blitz from the cosmetic dentists, including a recent spread in *Cosmo* and a newly launched blog. The pieces discuss the approach of the West Hills Smiles dentists, Dr. Pasha Hakimzadeh and Dr. Ben Reyhani, when it comes to anti-aging, cosmetic, and [restorative dentistry](#). With coverage from *Angeleno* reaching readers from the Canyons all the way to [Calabasas, dentist](#) Hakimzadeh is looking forward to increased attention from patients throughout Los Angeles who appreciate the highest quality care available.

"The West Hills Smiles difference is our luxurious, spa-like office," says Dr. Hakimzadeh. "This dedication to comfort extends to our treatment methods, as well. Dr. Ben and I always explore conservative and preventative treatment options first." Nonetheless, larger problems demand more proactive remedies. He continues, "The most satisfying results we've seen here come from our smile makeovers, a set of procedures with the goal of revealing a hidden, beautiful smile underneath." For patients in nearby Simi Valley, Agoura Hills, and [Woodland Hills, a dentist](#) with this attention to detail and comfort is a rare find, which is why patients visit the West Hills Smiles office for their smile makeovers.

Dr. Hakimzadeh and Dr. Reyhani's approach to the smile makeover most often depends on the expert use of three procedures: veneers, teeth whitening, and dental implants. Veneers, thin pieces of porcelain, are great for restoring function and aesthetics to damaged or cracked teeth. The West Hills Smiles team can also craftily use veneers to correct a bite and to fill in spaces that lead to a prematurely aged look. Plus, they adhere to whatever remaining tooth structure

exists, unlike invasive methods from the past that required the whittling down of teeth.

Whitening treatments then bolster the results of any other cosmetic dental procedures performed. Whether through in-office sessions that last about an hour, take-home trays to be used regularly for only a few weeks, or a combination of the two, whitening methods at West Hills Smiles are effective and convenient. Patients are often surprised to see just how dramatic a change of just a few shades can make.

Dental implants can have the most remarkable effect on a person's smile. Missing teeth are not only unpleasant to look at; they can also lead to poor hygiene of the mouth, gum tissue, and surrounding teeth. Implants at West Hills Smiles take only a few sessions, but their effect on the patient's self-esteem lasts for a lifetime.

About West Hills Smiles:

Formerly Sturgeon Cosmetic Dental Care, West Hills Smiles offers modern dentistry in a spa-like environment. Pasha Hakimzadeh, DDS and Ben Reyhani, DDS believe in a gentle approach, dubbing their philosophy "dentistry for the quality conscious." A comfortable environment and the most modern techniques and equipment await patients who walk through their doors. West Hills Smiles gets consistent rave reviews on Yelp and is a kid-friendly office with family-block scheduling available. The practice is located at the West Hills Medical Center, convenient to many surrounding areas in Los Angeles and the San Fernando Valley.

To learn more about West Hills Smiles or to schedule an appointment, visit www.WestHillsSmiles.com or give the office a call at 747-800-4101. The website provides information on the cutting-edge treatments performed by Dr. Reyhani and Dr. Hakimzadeh, as well as information about scheduling, insurance, and financing plans.
