

(PRLEAP.COM) As the popularity of online search continues to rise among people searching for dental care, Dr. Steven Stanley responds with an intuitive, patient-interactive website.

Cosmetic dentist and family dentist, Steven Stanley, DDS, has announced the launch of a new, patient-focused website. The site contains many informative features including patient education videos and a preventive care section that helps patients make better informed decisions about their oral health. The website also utilizes extensive search engine optimization techniques to reach patients and local consumers who are searching for relevant information about Shoreline, WA cosmetic dentistry services.

Dr. Stanley explains, "Visiting the website is a quick and easy way for patients to educate themselves about common dental conditions and the latest dental treatments and technologies available. Educating our guests ensures that they can get the most out of their dentistry procedures."

Current and prospective patients now have access to information about frequently asked questions, educational videos, and a links page of valuable outside resources when they visit the website. Some of Dr. Steven Stanley's services include:

Snoring and Sleep Apnea Treatment Family Dentistry Cosmetic Dentistry Dental Implants Dr. Stanley is utilizing his website to educate the community on the importance of good overall oral health and the significance of the mouth-body connection. The website includes a links page with information on quality oral health products and practices as well as a [frequently asked questions page](#) with topics ranging from oral hygiene to dental procedures.

"We want our website to be beneficial for users in our community where they can get all of their dental questions answered. We've compiled a list of links and frequently asked questions that we think address most concerns people have when selecting a dentist. We hope this information helps them make any decisions they're trying to reach when thinking of their oral health", Dr. Stanley adds.

About Steven Stanley, D.D.S.: Dr. Stanley received his doctorate from the University of Washington Dental School and has been in the Shoreline area since 1982 and serving the community at his practice since 1994. He was voted top dentist by Seattle Met Magazine and makes use of high-tech equipment to provide the best diagnosis and treatment possible. His Shoreline, WA office uses digital x-rays, Velscope oral cancer screening, and infrared cavity detection. The staff does exceptional work for young patients and can see them as early as 2-3 years old. Dr. Stanley's office also performs dental implant procedures and provides treatment
