

SAN DIEGO, Oct. 11, 2013 /PRNewswire-iReach/ -- Laser Clinique, under the guidance of Dr. Alexander Ataii

is now offering the latest in aesthetic enhancement technology, a fat reduction procedure called CoolSculpting. CoolSculpting is a 100% non-invasive, fat reduction and body sculpting technology that is taking the cosmetic surgery community by storm. It is far less costly and has significantly lower recovery time than surgical procedures. The CoolSculpting device targets fat cells in the adipose tissue only, leaving healthy surrounding tissue untouched. The fat cells freeze at a precise temperature, higher than that of normal cells, making this possible. Once the fat is frozen, it crystallizes, allowing the body to metabolize and eliminate it naturally, usually over the course of several weeks to months. CoolSculpting is the newest FDA-cleared development that CoolSculpting manufacturer ZELTIQ Aesthetics refers to as Cryolipolysis. This non-surgical procedure takes an hour per cycle and has transformed the process of targeting and elimination of stubborn fat.

Laser Clinique, a San Diego based Medical Spa provides comprehensive medical and wellness care in combination with aesthetic medicine. It is one of San Diego's

most luxurious and forward thinking Med Spa facilities. Dr. Alexander Ataii

, Medical Director of Laser Clinique has researched and evaluated all of the body contouring devices available in the market for the past three years before choosing to incorporate the Coolsculpting procedure. He states, "After thorough evaluation of the each of the body contouring devices and reviewing the scientific studies, Coolsculpting has time and time again shown significant results in each and every case performed." To date approximately 700,000 treatment cycles have been performed in the U.S.

Laser Clinique Medical Spa is known for its cutting edge aesthetic procedures and is excited to incorporate CoolSculpting as one of the most highly sought after body sculpting treatments in the U.S. For further information regarding the Coolsculpting procedure or to view some before and after photos please log onto www.laser-clinique.com or you can call at (858)481-7701.

Premier San Diego Medical Spa now offering Coolsculpting!
