

QUONSET POINT, R.I., Oct. 25, 2013 /PRNewswire/ -- Since 1988, the philosophy for Unetixs Vascular Inc., has remained unchanged: Listen to clinician needs and then develop vascular testing equipment that is easy to use and provides unsurpassed clinical accuracy.

This approach has led to a legion of loyal customers around the world and now, 25 years later, the company will commemorate its milestone anniversary by hosting Rhode Island Gov. Lincoln Chafee

,
Michael Fine
, Director of Department Health, and other state leaders at the company's facility here on
October 28

2 p.m.

Unetixs Vascular Inc., a group company of Opto Circuits (India) Ltd., was founded in North Kingstown, Rhode Island
in 1988. The company is located at 125 Commerce Park Road in Quonset Point. Its product line consists of noninvasive vascular testing equipment such as the Revo® 1100 and the MultiLab® Series LHS-TI & 2CP-R– technologically advanced systems that continue to enjoy global market leadership.

"Throughout the company's 25 years, not only has Unetixs been at the forefront of innovation but has been creating jobs for Rhode Islanders," Governor Chafee said. "I look forward to taking a tour of the company's facilities where I will see this innovative technology firsthand and meet the people behind these products."

"We are excited that Gov. Lincoln Chafee recognizes the importance of this anniversary and the

continued impact Unetixs has had on Rhode Island," said Neeraj Jha, CEO, Unetixs Vascular Inc. "We also look forward to working with the State of Rhode Island to organize various events to offer peripheral arterial disease (PAD) screening to the people of Rhode Island in hopes of driving awareness of this debilitating disease that affects 12 million people in the United States, including 5 percent of the over-50 population."

"This milestone anniversary is an opportunity for us to reflect on our accomplishments while we focus on future plans to increase our product portfolio, customer base and market penetration across the globe," said Vinod Ramnani, Chairman and Managing Director, Opto Circuits (India) Ltd.
