

Smile Makeover of LA Welcomes You To Their New Dental Practice in Glendale CA

Written by Australian Business

Glendale, California November 12, 2013 [Health News](#) (PRLEAP.COM) Smile Makeover of LA is a new dental practice located in the heart of Glendale, CA and few miles away from Downtown Los Angeles.

Dr George and Stella Sahakyan, who are a general dentists and also brother and sister, have been practicing over 10 years of biological/holistic dentistry. Smile Makeover of LA was formerly owned by Dr. Debra Meacham whose goodwill and outstanding work in the Glendale community made going to the dentist office a piece of cake for over 40 years.

Taking Dr. Meacham's success in biological/holistic dentistry, Dr George and Stella Sahakyan have taken the next step by using the latest state-of-art technology and for being amalgam/metal free dentistry. "The use of biocompatible materials and development of appropriate protocols to ensure patient's health is the foundation of our practice" say Dr. George Sahakyan.

To determine material compatibility, Smile Makeover of LA offers a simple blood test called Clifford Material Reactivity Test. This allows the Glendale dentist office to determine from the list of materials, which material is most compatible to the patient and the least degree of risk. The office stresses they don't use amalgam mercury fillings with their patients, which significantly decreases any kind of health issues.

During the removal of mercury fillings, Smile Makeover of LA uses strict protocol to prevent additional mercury exposure, such as:

Utilization of isolation with rubber Dam
Operating a vacuum system with maximum efficiency
Utilization an efficient suction system in the mouth with special tip to contain mercury particles and vapor
Apply large amount of water during removal of the filling
Remove the amalgam in the large segments to minimize generation of mercury vapor and amalgam particles. In addition to general and cosmetic dentistry, Dr George and Stella Sahakyan are practicing traditional orthodontics, Invisalign and Implant dentistry.
