

New Physical Therapist Joins Esprit Wellness

Written by Australian Business

(PRLEAP.COM) Esprit Wellness proudly announces the addition of Dr. Ahmed Abdelmoamen to our [New York physical therapy team](#) . Abdelmoamen has years of experience in physical therapy, including work in Egypt, Saudi Arabia and here in New York.

Abdelmoamen is a recent graduate of Widener University, earning a doctorate in physical therapy in 2009. Prior to that, Abdelmoamen earned a bachelor's degree in physical therapy at Cairo University in Egypt in 1985.

Abdelmoamen has spent more than 25 years in the physical therapy field, having worked at Al-Nasr hospital in Cairo and at the Saudi German Hospital in Jeddah, Saudi Arabia, where he headed the physical therapy department. Abdelmoamen also has extensive experience working in the U.S., having worked for several New York physical therapy clinics since 2000.

At Esprit Wellness, we provide a number of physical therapy solutions to pain management and rehabilitation, including massage, exercise, joint mobilizations, cold therapy and heat therapy. Abdelmoamen's education and wide experience will help him provide expert insight into treating our patient's issues, whether it's arthritis, injuries, osteoporosis or other problems.

Abdelmoamen's addition to the staff at Esprit Wellness aids our mission of providing a multi-disciplinary approach to helping our patients mitigate pain and improve mobility and quality of life. We believe that an approach that offers chiropractic, acupuncture, physical therapy and traditional medical advice enhances our ability to recognize and treat a variety of issues that may result in pain or limited mobility.

[Patients seeking NYC chiropractors](#) , physical therapists, doctors and acupuncture professionals who they can trust should visit Esprit Wellness to learn what we can do to help them live better.

About Esprit Wellness Esprit Wellness provides chiropractic and physical therapy services in the New York City area. Doctor-owned and operated, we specialize in providing non-invasive care to our patients. Our highly trained, board certified physical therapists, chiropractors, massage
