) Nutley, NJ – Understanding the importance of teaching comprehensive dentistry, Barry Litwin, DDS, works with Mountainside Hospital to educate dental interns.

Family and cosmetic dentist, Dr. Barry Litwin, has been working with Mountainside Hospital for the past year, helping to educate the dental interns there. HackensackUMC Mountainside provides a wide range of dental care to local patients in need of treatment. The procedures are performed by post-graduate students and include everything from dental implants and prosthetics to emergency services and oral surgery.

[Dr. Litwin](#) values the connections and relationships he builds while teaching at Mountainside. His expertise in the field of dentistry allows him to teach the importance of comprehensive dentistry to his students, in order to better serve the oral health needs of his community. Dr Litwin states, "The interactions with students are my favorite part of the Mountainside experience. If I can successfully teach them the benefit of giving their patients the most complete care, I know that everyone they treat will be healthier."

From his Nutley dental practice, Dr. Litwin is able to offer his patients the benefits of a complete range of services. As a skilled dental practitioner, Dr. Litwin can perform implants and extractions, dental restorations, preventive care, [sedation dentistry](#), and periodontal disease treatments. These all-encompassing services are important in offering the best care possible. "A good dentist is one who can diagnose and treat a variety of oral health problems. I want the interns under my instruction to know that the best way to care for others is to be as knowledgeable as possible and to educate the patient as well."

In addition to offering traditional dental services, Mountainside hospital also offers health education programs and dental screenings for patients. To learn more about the services provided by the dental clinic at HackensackUMC Mountainside, visit the website at [mountainsidehosp.com](#).
